PROFESSIONAL SUMMARY

Data Analyst skilled in Python, SQL, Excel, and Power BI with hands-on experience in data analysis, dashboard development, and business reporting. Proficient in data cleaning, exploratory data analysis , and data visualization to uncover trends and generate actionable insights. Strong analytical and problem-solving skills with a keen interest in transforming data into meaningful business outcomes.

WORK EXPERIENCE

Full Stack Developer, Grass Solution

Jaipur

Jul 2024 — Jan 2025

- Enhanced UI performance through component optimization and routing improvements, reducing page transition time by **35%**.
- Developed and maintained **15+ responsive React components**, ensuring cross-device compatibility and reusable UI architecture.

Data & AI Engineer, Cache Digitech

Delhi

Jul 2025 — Present

- Built automated data pipelines using Python and SQL to collect, clean, and transform structured data for analytics and reporting.
- Designed and maintained Power BI dashboards to monitor business KPIs, resulting in a 60% reduction in manual reporting time.
- Conducted exploratory data analysis on 50K+ records, uncovering patterns and trends that supported data-driven business decisions.

PROJECTS

Bid Intelligence

Built a full-stack [bid management platform](#) with role-based access, team hierarchies, project quotas, and admin dashboards for user creation, project assignment, and team oversight. Developed an AI-driven RFP processing pipeline that extracts text from documents, analyzes tenders via LLM, and delivers structured summaries, eligibility checks, product mapping, and OEM recommendations.

Supply Chain Management

Built a [SCM workflow platform](#) that track the quote-to-purchase-order lifecycle with role-based access, workflow gates, OVF approval, and SCM PO handoff. Automated invoice-to-quote by parsing documents and integrating LLM to extract details from POs and invoices, cutting manual data entry in the SCM flow.

EDUCATION

BTech, Arya College of Engineering , 8.7 SGPA

Jaipur

Sept 2021 — May 2025
